The Age Friendly Cities & Counties Programme in Ireland supports the development of communities where people, as they age, can continue to enjoy a good quality of life and continue to participate fully in their communities. The model is based on the World Health Organisation (WHO) Age Friendly Cities Framework and Guidelines which were developed in recognition of the challenges and opportunities that societies will face as they respond to an unprecedented growth in the number of older people living in our communities. It is our belief that the Age Friendly Programme can have a very considerable and positive impact on the life of people living in County Tipperary, in particular for those over the age of 65. Since 2014, Age Friendly Ireland has been supporting Tipperary County Council in the development of the Tipperary Age Friendly County Initiative.

Age Friendly Ireland

The ageing of our population will represent one of the most significant demographic and societal developments that Ireland has ever encountered. The implications for public policy across areas as diverse as housing, health, urban and rural planning, transport, policing, the workplace and the business environment are considerable.

Led by the Age Friendly Ireland Programme, over the last eight years significant progress has been made across Ireland in adopting the global World Health Organisations Age Friendly Programme framework. To date 31 City & County programmes across 26 counties have established and are committed to embedding age friendliness through improved health & wellbeing, lifetime housing, accessible public & private services, timely and accessible transport and improved information & communication.

The National Programme is anchored in local government and delivered on a multi-sectoral basis both locally and nationally. The National Age Friendly Ireland Programme is hosted by Meath County Council and provides a centralised support service that provides technical guidance to the 31 local programmes. This supports the scaling up and mainstreaming of age friendly practices with a focus on demonstrating how best practice can influence national policy and enable Ireland to be ready and prepared for the change in our ageing demographic

Tipperary Public Participation Network (PPN)

Tipperary Public Participation Network is the new framework through which community and voluntary organisations across Tipperary will connect with and have their say where it matters at local government level. Let your group or locality have a voice at county level, meet like minded representatives and get networking and information opportunities by joining the PPN.

The PPN is the means through which local groups and organisations will be consulted by the Local Authority on local and county matters, and the mechanism through which community representatives are elected to Local Authority committees and other bodies in Tipperary.

You can contact Tipperary PPN on 0504 61014 or 087 4567111, or by email on ppntipperary@gmail.com

Making a Will

It is important to make a will to ensure that your wishes are carried out. It also makes it easier and less costly to administer your estate after your death. Professional advice is advisable, especially if your estate is large. There are a number of ways to access information on this.

- Your local Citizens Information Centre provides information on ‘Making a Will’.
- The Irish Hospice Foundation launched a new booklet called “Think Ahead”. This booklet encourages you to gather your thoughts about your financial and legal affairs. It gives you a chance to write down your personal wishes for future medical and personal care. Forms are available from your local Citizens Information Service and Pharmacies or can be downloaded at www.thinkahead.ie
- Safeguard your finances in later life; log on to www.keepcontrol.ie to find out more.

## Toilet Access

One of the main challenges of the physical environment identified by older people is access to toilets. Public toilets are available in Libraries, Courthouses, Museums and other public buildings for your use. Other private buildings, public houses, restaurants and coffee shops, which provide toilet facilities for their customers, will usually allow older people to use their facilities if approached.

## Eircode

Eircode is the new Postcode that was introduced to Ireland in July 2015. The new Postcode is a mix of Letters and Numbers and will be seven characters in length. The Eircode Postcode is divided into two parts; a routing key and a unique identifier.

Eircode brings many benefits:

1. Makes it quicker and easier for medical emergency services to locate addresses.
2. Allows delivery and service companies to accurately identify addresses so deliveries get to the right location.
3. Makes it quicker and easier to shop online.
4. Helps to develop Irish businesses and facilitate better planning and delivery of public services.

Ensure that you keep your Eircode beside your phone or attached to your phone at all times.

Fill in an ‘Agent Form’, which is available at your local Citizens Information Office or Post Office. Return the form to Department of Social Protection, Pension Services Office, College Rd, Sligo.

  - *The Post Office can only make payments to named and notified agents. The naming of an agent does not stop you from continuing to collect your own pension at any stage.*

- **Age 80 Allowance**

  Pensioners receiving an Irish social welfare pension automatically receive a €10 increase in the personal rate of their pension when they reach the age of 80. The increase is only paid to the main claimant of the pension and not to the Qualified Adult.

- **Supplementary Welfare from Department of Social Protection**

  The Supplementary Welfare Allowance Scheme consists of a basic payment, called **Supplementary Welfare Allowance**, and other financial supplements for certain expenses you may not be able to meet, including emergency situations. It is administered by the Department of Social Protection’s representative (formerly known as the Community Welfare Officer) in your Social Protection Local Office. Some of the supplements available include:

  - **Exceptional Needs Payment** to meet once off essential costs for example special clothing for a person who has a serious illness.

HAP is a means tested support. The Local Authority pays the full amount of rent up to the rent limits for their area to the landlord. Tenants pay their weekly rent contribution directly to their local Council. Tenants may need to pay a monthly “top-up” to their landlord if the rent is higher than the area rent limit.

■ HSE Safeguarding & Protection Team — Elder Abuse Supports

Safeguarding adults is about protecting those at risk of harm from suffering abuse or neglect. Abuse can happen anywhere. It can happen at home, in a residential or nursing home, in a hospital, at work or in the street.

A vulnerable person is “ a n adult who may be restricted in capacity to guard him/her self against harm or exploitation or to report such harm or exploitation. ” Restriction of capacity may arise as a result of physical or intellectual impairment.

Recognise the signs of Elder Abuse

A wide range of people may abuse older people, including relatives and family members, professional staff, paid care workers, volunteers, other service users, neighbours, friends and associates. There are several forms of abuse, which may be carried out as the result of deliberate intent, negligence or ignorance. Below are some examples and indicators:

- **Psychological Abuse:** Feeling afraid in your living accommodation or experiencing feelings of hopelessness or helplessness because of the attitude/behaviour of others.
- **Neglect and Acts of Omission:** Includes ignoring medical or physical care needs, failure to provide access to appropriate health, social or educational services, the withholding of the necessities of life such as medication, adequate nutrition and/or heating. It also includes being left alone for long periods when you cannot move about easily and are experiencing significant discomfort even though it is brought to someone’s attention.

SAFETY & SECURITY

■ Emergencies
At some point in your life, you may need to call the emergency services such as fire, police, or medical personnel. By being prepared for calling the emergency services, you can get the help you need much more quickly which can often make a big difference. In Ireland we have two emergency numbers, 999 and 112.

112 also works in all EU countries and from any phone, free of charge. Remember when calling 112 (or 999), 'stay calm, stay focused and stay on the line' and if possible give the Eircode of the house so that the emergency services can easily find you.

■ The Seniors Alert Scheme
The Seniors Alert Scheme is financed by Pobal and provides a grant for the supply of equipment and Personal Pendant Alarms. The pendant alarm is worn on the wrist or around the neck and when activated in cases of emergency, it provides immediate contact with the people you have chosen to be on your emergency list. This enables older people to continue to live securely in their own homes. The grant assistance is made available through community and voluntary groups registered with Pobal. See www.pobal.ie  Pobal Helpdesk: 01 5117222  Contact your local Citizens Information Centre for further information.

"Text Alert" is designed to facilitate immediate and cost effective communication from An Garda Síochána to the public. Text Alert is run in cooperation with IFA, and Muintir na Tire and ensures a structured and consistent approach to crime prevention through existing Community Crime Prevention Programmes (Neighbourhood Watch, Community Alert) or IFA Branches.

Gardai will provide a Text or email to each registered Community Contact and they in turn will forward the information by text or email to all members of their community group. Text Alert enables AGS to disseminate information to the community in a timely manner, creates a greater sense of safety within the community, fosters a greater working relationship and reduces Burglary and Theft Offences. Bogus Caller Cards

The cards were launched following an increase in the number of bogus callers and tradesmen calling to vulnerable people. Householders can ask any traders or workmen calling to homes requesting to carry out work to supply their details on the card. If there is any doubt as to the true legitimacy of the person, house-holders can contact their local Garda Station. The genuine caller will supply their details. If a caller is unknown to you “if in doubt keep them out”.

“Message in a Bottle” Initiative

The “Message in a Bottle” Initiative is free to all who need it and is aimed at older adults whose medical details are written on a page, placed inside the plastic bottle and kept in the fridge where the emergency services will find it. It will save the emergency services valuable time identifying someone in difficulty and will quickly provide his or her emergency contacts.

All First Responders i.e. the emergency services, HSE ambulance teams, Fire Brigade, and the Gardaí support the initiative. If called to an emergency, upon seeing the stickers, they will immediately collect the vital information from the fridge. Further details on this initiative available by contacting your local Garda Station.

Crime Prevention Advice

Burglary Prevention Advice
Secure all doors and windows.
Light up your home, use timer switches when out.
Store keys safely and away from windows and letterboxes.
Record details of valuables and don’t keep large accounts of cash at home.
Use your alarm, even when at home.
If you are away, cancel deliveries, have your post collected and cut your grass before you go away on holiday.

Personal Safety
Be aware of your surroundings.
Avoid travelling alone, where possible.
Walk in well-lit streets.
Avoid dark, isolated areas.
Tell someone where you are going and when you expect to be home.

Safer Shopping
Take extra care when using a cash point or chip and pin.
Don’t let anyone see your pin number, never write down your pin number.
If you carry a handbag, keep your purse at the bottom.
Never keep your wallet in your back pocket.
Keep your handbag zipped at all times – crowded shopping areas are very popular with pickpockets.
Don’t leave your handbag in the shopping trolley while you shop.
Thieves can target car parks; avoid leaving shopping bags in vehicles for prolonged periods.

Smoke Alarms
Smoke alarms are very important for early warning – smoke will not wake you up in fact it will make you sleep more deeply. Smoke alarms buy you time to allow you and your family to get safely out of the house. At least two smoke alarms should suit a standard two-storey dwelling. These should be located on the landing of each floor. Alarms must be positioned at the highest point and as close to the centre of the ceiling as possible. They should be tested weekly – by pressing the test button.

Community Smoke Alarms Scheme
As a minimum requirement it is essential that smoke alarms are fitted in the hall and landing of every home. It is the aim of Tipperary Fire & Rescue Service to increase the number of smoke alarms in homes across Tipperary to meet the minimum standard. We aim to provide and install smoke alarms to the most vulnerable. If you require a smoke alarm please inform a member of your community group/ organisation who can in turn contact the Fire Service on your behalf, a member of the fire service will then be in contact with you to arrange installation of your smoke alarm.

REMEMBER – Smoke, not heat or flame causes most fire deaths. It can take as little as three minutes to die from breathing smoke. Smoke alarms save lives.
Carbon Monoxide Detectors

A carbon monoxide detector or CO detector is a device that detects the presence of the carbon monoxide (CO) gas in order to prevent carbon monoxide poisoning. CO is a poisonous, colourless, tasteless and odourless gas given off by any appliance which burns a fossil fuel such as gas, coal or oil. It can enter your home if your appliance is faulty, or the room is not properly ventilated, or if the chimney or flue is blocked. They are readily available in any hardware store.

General Fire Safety In Your Home - Fire Prevention Key Points

1. Take extreme care when cooking chips / fried food. Never leave a chip-pan unattended.
2. Check electric blankets regularly for wear and tear / damage and ensure they are used according to instructions.
3. Use an effective spark guard on open fires especially before going to bed.
4. Do not leave newspapers, clothes or material too close to a fire or heaters.
5. Switch off and unplug all non-essential appliances when not in use.
6. Provide large, stable ashtrays in the event of smoking – a burning cigarette end can smoulder for hours before igniting and spreading.
7. Never smoke in bed.
8. Check all leads and plugs for fraying or burning and replace if necessary. Do not overload sockets.
9. Get a qualified electrical contractor to carry out installation and repairs to electrical appliances and fittings. Don’t take chances.

Last thing at night

- Ensure spark guards are in front of open fires.
- Switch off and unplug all electrical items. Do not leave the television or radio on standby.
- Plug out phone chargers.
- If your exit requires a key for opening, ensure the key is in the lock before going to bed.
- Ensure all escape routes are clear. Close all doors (especially from the kitchen and living room).

Fire Prevention – What to look out for!

- Check your home room by room for fire dangers and correct them.
- Remember most fires in the home start in the living room and bedroom at night when we are sleeping.

Summary:

- Identify risks around the home and eliminate hazards.
- Fit smoke alarms.
- Have fire extinguishers and/or fire blankets.
- Plan escape routes & practice fire drills. Remember the most important thing is prevention – prevent a fire happening in your home in the first place!

■ Free Travel Scheme

Everyone aged 66 and over living permanently in the State is entitled to the Free Travel Scheme. Some people under 66 also qualify. If you qualify for free travel, you are issued with a card that you must carry with you when using public transport. In some cases, a Free Travel Companion Card is available which allows another person to travel with the card holder (if they are unable to travel alone).

Free travel is available on all State public transport (bus, rail, and LUAS) with some exceptions and is also available on certain private bus and ferry services. You may also travel free of charge on certain cross-border services between Ireland and Northern Ireland.

Private bus transport operators that have opted in to the Free Travel Scheme accept free travel cards. You should contact the Department of Social Protection to check if your private bus operator accepts free travel cards. Contact your local Citizens Information Centre for more information.
Free Travel and Public Services Card

The Government has introduced a Public Services Card which will allow people to access a range of government services and payments. The Public Services Card will eventually replace the Free Travel Pass. If you are entitled to free travel, when you are issued with your new Public Services Card it will also be your Free Travel Card. The card will have FT printed in the top-left-hand corner of the card. You may also be entitled to Free Travel plus a companion. The card will have FT + C printed in the top-left hand corner of the card.

You must show your Public Services Card to the travel operator when you are using public transport.

If you are aged 66 or over and are getting a social welfare pension, the Free Travel Card will be issued automatically if you have registered for your Public Services Card. If you have not registered for a Public Services Card, you will be asked to register before your Free Travel Card is issued to you.

Contact your local Social Welfare Office for an appointment to get your new Public Services/Free Travel Card. See list of offices on p. 32 at the back of the Guide. You must attend in person in order to have your photograph taken. Bring Passport/Driving Licence as proof of identity and a current Utility Bill as proof of address.

USEFUL INFORMATION

Falls Prevention
Falls for older people can lead to an increase in the risk of hospitalisation and a significant health decline. As well as physical injuries suffered, the psychological and social consequences of falling can have an equally huge impact. As you get older, a fall can result in broken bones, but also in loss of confidence, loss of mobility, depression, anxiety, isolation, loss of independence and fear of leaving your home. Many falls can be prevented, and by making small changes you can lower your chances of falling.

1. Keep active, exercise and wear loose, comfortable clothing and well fitted sturdy shoes.
2. Regular physical activity makes you stronger and improves your balance and coordination.
3. Start with walking. You can slowly increase the distance you walk.
4. Ask your GP to review your medicines as some medicines may make you feel faint.
5. Have your vision checked as your eyesight changes as you get older.
6. Arrange furniture so that you can easily move around all your rooms.
7. Keep the floors clear from papers and books that could cause a trip.
8. Remove rugs or use non-slip tape or backing so rugs will not slip.
9. Make sure wires or cords from lamps, telephones etc do not trail where you walk.
10. Do not leave shoes or books on steps of stairs.
11. Have a light switch fitted at the top and bottom of the stairs.
12. Install hand rails on both sides of the stairs, making sure they reach the top.
13. Fit grab rails next to your toilet, bath and shower.
14. Use non-slip mat in the bath or shower.
15. Keep items you use often in the kitchen within easy reach.
16. If you need to reach high shelves use a steady step rather than a chair.
17. Place a lamp close to your bed where it is easy to reach.
18. Make sure there is a light between your bedroom and the bathroom.
19. Have a phone extension fitted in your bedroom.
20. Wear a personal alarm.

Driving Licence
You are required to carry your driving licence with you at all times when driving. When your driving licence expires, you must renew it if you wish to continue driving. The Road Safety Authority now has responsibility for driver licensing and has set up a new National Driver Licence Service (NDLS). To apply for a driving licence, you have to visit one of the new NDLS centres. NDLS centres in Tipperary are located at Suite 5A, Second Floor, Powerstown House, Gurtnafleur Business Park, Clonmel & 10 Silver Street, Nenagh, or you can renew your licence at any NDLS centre nationwide. As part of the face-to-face application process, your photo and your signature is captured digitally. You must also provide (1) Evidence of your PPS Number, (2) Proof of Address (3) Photographic ID to confirm your identity e.g. valid Irish passport/passport card, Irish licence, current national identity card etc.

A new plastic-card driving licence has been introduced, replacing the paper driving licence. If you are older than 67 but under 70 years of age, you may apply for a 3-year licence. Once you are over the age of 70, you will need a Medical Certificate to drive which must be completed by your doctor to apply for a 3-year or a one-year licence. Medical Certificates must be submitted within one month from the date of signing by your doctor. Motorists over the age of 70 can get their driving licence renewed for free. A driving licence can be renewed three months in advance of the expiry date of your current licence.

- [www.nosp.ie](http://www.nosp.ie)
- [www.mentalhealthireland.ie](http://www.mentalhealthireland.ie)
(1) The Home
- Have a good supply of non-perishable, easy to prepare food
- Have an adequate supply of heating, cooking fuel and if possible a suitable alternative should the main supply fail
- Have torches/batteries should the power supply fail
- Have candles and matches available. Store appropriately and never leave a burning candle unattended
- Have a water container to ensure a supply of drinking water
- Have a shovel and bag of salt for clearing paths
- Know how to turn off the water supply
- Ensure your home/water tank are well insulated
- Call on elderly relatives and neighbours regularly. Ensure they have sufficient supplies of food/fuel/medication etc.

(2) Personal Safety
- Keep sufficient stock of essential medication
- Keep warm, eat well and avoid unnecessary travel
- Eat regular hot meals and drink plenty of fluids, this will keep you warm and will give you energy to keep active
- Wear well fitted shoes and non-slip soles
- Try to limit outside walking during the cold weather
- Consider wearing a personal alarm so that family and friends are alerted when required
- Have emergency contact details to had
- Don’t be afraid to contact for help if required

(3) Water Shortages
- To prevent stopcocks from freezing, open the stopcock chamber and remove any water. Fill the chamber with non-absorbent material to provide insulation. Does not use absorbent material as this will freeze when wet.
- Do not leave taps running as this merely wastes resources
- If you are leaving your property unattended for a period of more than a day or two, you should cut off the water supply to the property from the external stopcock while ensuring that any water dependent appliances or facilities are also shut off.

(4) Avoiding Frozen Pipes
- Ensure all exposed pipes are adequately insulated. This includes pipes in the attic where the attic floor has been well insulated.
- Insulate or wrap a towel around outside taps
- Leave a light on in the attic
- Consider opening the attic trap door to allow heat in
- Leave heating on for longer periods at lower settings
- Warmth offers the best protection against frozen pipes so keep warm
- Frozen mains water supply – If your water is frozen, be cautious with the use of heating systems, back boilers, washing machines or other water dependent appliances or facilities

(5) Water Leaks
- Water supply in vacant premises and holiday homes should be shut off and drained down in preparation for Winter
- Key holders check premises for possible leaks
- Turn off water supply – stop valve is usually under the kitchen sink
- Turn on cold taps to drain the system
- Turn off central heating
- Turn off electricity supply if leak is near electrical appliances
- Call a qualified plumber

(6) Clearing Snow (see legal advice on next page)
- Clearing snow can be demanding work – only undertake the task if you are reasonably fit and do not have an underlying medical condition
- Clear snow or ice early in the day if possible
- Wear sturdy, insulated, waterproof footwear with good gripping soles
- Use a shovel. There are special shovels for this task but any garden shovel will do
- Make a path down the middle of the area being cleared so that you will have a clear surface to walk on
- Never use boiling water to clear snow, it may re freeze and cause the formation of black ice
- You can prevent ice forming by spreading salt on the area that you have cleared
- When you are clearing snow it is important that you don’t create an obstacle for pedestrians or traffic. Ensure that the snow is removed to a location that won’t create a hazard.

The Office of Emergency Planning
www.winterready.ie @emergencyIE
(7) Clearing Snow
Legal advice for Snow Clearance and Gritting.
The Office of the Attorney General has advised that liability
does not arise when snow is cleared from footpaths in a
safe manner.

In relation to people gritting roads with grit supplied by the
local authorities, the legal advice is that the issue of liability
does not arise when the material is delivered, stored and
used in a safe manner and does not cause hazard.

(8) Flooding Advice
- Move valuables and other items to safety. Place them
  above the flood level or upstairs
- Put sandbags at any openings where the water could gain
  access
- Turn off gas and electricity
- Have warm clothing and wellingtons ready
- Have medicine to hand if needed
- Co-operate with emergency services and local authorities,
  for your safety you may be evacuated
- Don’t try to walk or drive through floodwater
- If possible avoid contact with floodwater as it may be
  contaminated or polluted
- Take care if you have to walk through shallow water –
  manhole covers may have come off and there may be
  underwater hazards that you cannot see
- Never try to swim through fast flowing water - you may
  get swept away or struck by an object in the water.

(9) Flooding Advice
- Move your car to high ground if possible
- Remember that floodwater could get into your garage so
  move any chemicals or fuel to ensure that they do not
  spill into the floodwater and cause an additional hazard
- Weigh down any manhole covers with sandbags or heavy
  objects. These could open during a flood and cause a
  hazard
- Close of the flow valves on propane tanks, oil drums, or
  other fuel containers that supply your home through
  pipes and fittings
- Unplug any exterior electrical connections such as
  outdoor lighting, pond pumps and filters
- Be prepared to evacuate your home or business. Protect
  yourself, your family and others that need your help

(10) Road Safety
- Get your vehicle serviced to ensure it is fit and safe
- Carry out regular checks on the vehicle
- Check for wear and tear on wiper blades and replace
  them as soon as they start to smear rather than clean
  windows
- Keep tyre pressure at the manufacturer’s recommended
  level
- Replace tyres if necessary check your tyre tread depth:
  the minimum legal limit is 1.6mm, however, for winter
  driving 3mm is advised
- Make sure all vehicle lights are working and clean
- Ensure the vehicle has adequate levels of anti freeze
  coolant and screen wash
- Check your vehicle battery
- Keep torch, blanket, High visibility vest, shovel, tow rope,
  warm clothing, and spare mobile phone charger in the
  car.

(11) Farming
- Have a supply of gritting material available to allow access
  to and from the farmyard
- Insulate any exposed pipes
- Taps left running at a low rate to keep water flowing in
  order to reduce the likelihood of pipes freezing should
  only be considered where there is an on-farm supply
  source. This option cannot be used if the water is
  supplied by the Local Authority of Group Scheme
- Install a thermostatically-controlled heater in plant rooms
  which should cut in when the temperature reaches 1°C
- Grit sloped yards and roadways to facilitate traffic
- Herd out wintered livestock during daylight hours and be
  back before nightfall
- Keep away from hazardous areas and rough terrain
- Bring a mobile phone when going out herding or on other
  journeys

(12) Business Sector
- Preparing your business for severe weather
- A practicable checklist for the business sector that
  outlines the key issues to address, In order to ensure
  business continuity during severe weather events is
  available on www.db ei.ie and www.forfas.ie

(13) Be Winter Ready Booklet
The booklet can be downloaded from the website

available.
