

## Spell Checker

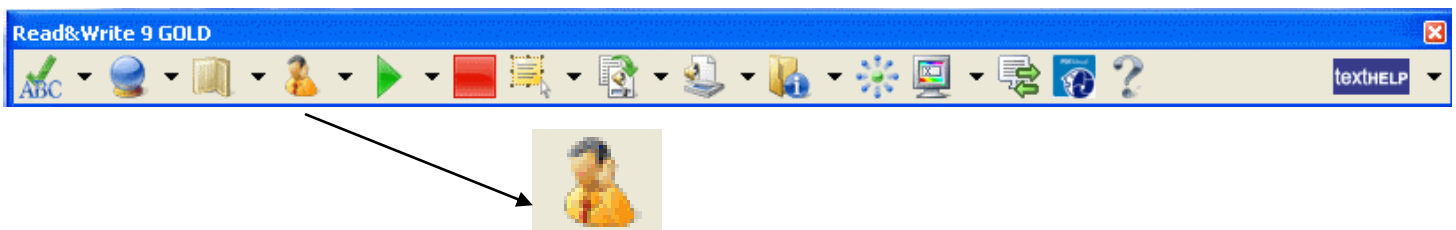

Read Spell Gold's Spell Checker can read the spelling options aloud to help you check whether you are using the correct word. You can choose to spell check as you type or check your completed work.

## Speak as I Type

You can use this tool when typing-the computer will read the words aloud as you type.

## Homophones

In addition to the usual spelling and grammar check, Read Write Gold offers a homophones feature. Homophones are words that sound alike but are spelled differently or have different meanings. Eg; Knight/Night, Wear/Where, Not/Knot, Flu/Flew. You can check your document for these kinds of words to make sure your spellings are correct.

## Dictionary

Read Write Gold has an in-built dictionary which you can be used to give you definitions of words. Again, you can hear these definitions read aloud if you want.

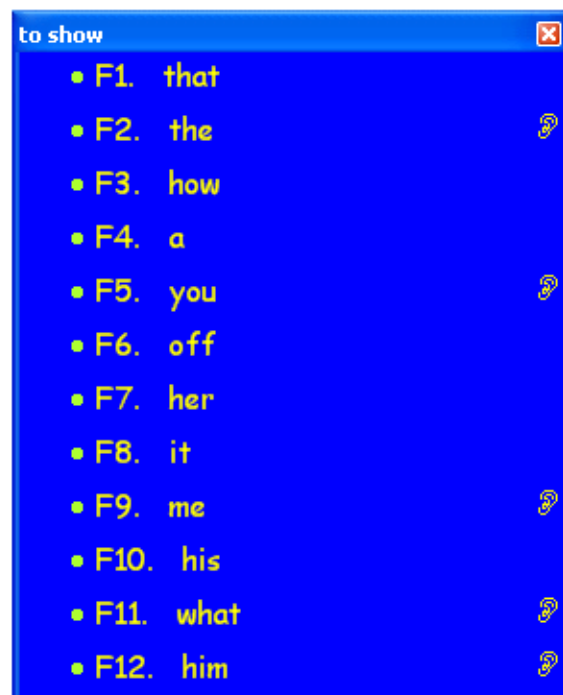

## Word Prediction

Word Prediction can enable you to develop your writing skills by providing the tools to construct sentences with ease. The Word Prediction tool predicts the word you want to use next. As you type, a list of suggestions will appear in the Prediction window. Word Prediction will predict words even if you start to spell the word incorrectly.

## Exercise

1. Click on the prediction button.
2. In Microsoft Word type: I am writing this to show
3. The prediction window will look something like this:

4. To insert a word from the window into your document, click on it or press the corresponding Function key that appears beside it e.g. F1.
